Information

Parking within

Port of Trelleborgs Port Area

Port of Trelleborg AB has recently had problems with vehicles parking in areas where parking is not allowed. Many vehicles use the service lane and the check-in area for parking - this applies to both incoming and outgoing vehicles - and some have abused the rules and parked for several days. Even the Travemünde Alley is often used for parking.

When many vehicles park in these areas it becomes difficult to handle the traffic, in the check-in area for each shipping line, trying to get to the gates.

We will now try to make it easier for everyone at the check-in area by letting Q-Park fining vehicles parked where parking is not allowed.
Q-Park will also check the parking lot between Hamngatan 9 and the gas station Shell.
As of April 7, 2015, it is no longer possible to appeal against parking fines via the Port of Trelleborg.

In the map enclosed, there is marked where and for how long it is allowed to park on the appropriate places. For longer parking we refer to the marked parking place.

Please inform your customers so that no misunderstandings occur.

The Port of Trelleborg thank you for your help and understanding!

Kind regards
Port of Trelleborg

Tommy Halén
