

# Freight driver self check in system

## Smart Gate: Vehicle Visit System (VVS)

A service system for simpler planning, efficient check in and quicker processing. Creating flow between administration and shipment.

## Simplifying freight

We are launching a new way to plan, register and check in trailers, resulting in less waiting time at the terminal for the driver and creating a better workflow between planning and shipment.

Smart Gate provides two options for more efficient pick-up and/or drop-off. Pre-register all necessary details online to connect the vehicle's license plate to the shipment information. Or the driver can use the Smart Gate Kiosk at the terminal to process shipment registration and check in on-site.

The Smart Gate system will be launching at Stena Line terminals across Europe starting 2023.

More information will be sent out prior to each launch.

[See all active Smart Gate solutions on our website](#)

# How it works

## Register shipment pre-arrival

Submit the necessary registration details online

- Truck details: Vehicle registration number (front license plate)
- Driver details: Full name and phone number
- Booking details: Booking number, vehicle (trailer) registration and nationality, goods type and weight and job reference

Upon arriving at the gate, the license plate of the truck will be scanned and the driver will have to prepare check in at the Smart Gate kiosk:

- Confirming pre-registered details
- Checking in

Errors in registration? Edits can be made via Smart Gate Kiosk prior to driver checking in.

Units carrying hazardous goods or animals, accompanied units, Port Cash Account, or Block bookings

## Drivers full registration at the terminal

It will be possible to register and check-in shipments at the gate in the Smart Gate Kiosk. The driver can simply enter the necessary information directly into the kiosk:

- Truck details: Vehicle registration number (front license plate)
- Driver details: Full name and phone number
- Booking details: Booking number, vehicle (trailer) registration and nationality, goods type and weight and job reference
- Check in at the same Smart Gate Kiosk

The trailer is now ready for drop-off/pick-up.
