

Quicker and more efficient

With Smart Gate (VVS) Web there will be less time spent in the terminal with a smoother and more efficient process of check-in, drop off/pick up. If you prefer to register and manage your shipment on-site, the option to use VVS Kiosk is readily available for you.

Remote registration for efficient check-in

Smart Gate: Vehicle Visit System (VVS)

We are implementing a full-service system at our terminals for registering shipments before arrival. Simply pre-register the unit and all you need to do is check-in to see your location for pick up/drop off.

How it works

Checking in with pre-registered shipment details

With truck, driver and booking details already registered, the vehicle's front license plate will identify the shipment and all you need to do is check in at the Smart Gate Kiosk and continue to drop-off/pick-up.

Missing details in pre-registration?

Edit the details at the Smart Gate Kiosk before check-in

Resets in **10** seconds

Register at the terminal

Registration and check-in is available at the Smart Gate Kiosk. Simply enter the information on-site:

- Truck details: Vehicle registration number (front license plate)
- Driver details: Full name and phone number
- Booking details: Booking number, vehicle (trailer) registration and nationality, goods type and weight and job reference
- Check-in: Follow the instructions in the text message sent to your phone number
