**No Shows** will be measured separately per individual customer account number for each route on a monthly basis. Even though there is a potential charge to be imposed, our ambition is to minimise the number of invoices, and instead continuously work on reducing No Shows, monitor exceptions and also allow some flexibility when a driver communicates in time with our customer service team, via app or online services in case of traffic disruptions. There will be a threshold of 3% for No Shows, whereby no charge will occur. However, if the number of No Shows exceeds the threshold, there will be a charge from the very first unit.

**Definition:**

- No Shows are confirmed bookings (including block bookings) that are not used.
