Adjustment rules 2025:

- The fuel surcharge will be adjusted on a monthly basis and will be valid for one calendar month.
- The surcharge will be calculated based upon a one month average USD per metric tonne price for LSMGO 0,1% for the routes in kategori A to F and for LS 0,5% for the routes in categories G to K as of S&P Platts Dimensions Rotterdam www.spglobal.com, plus a delivery charge*. The conversion rate will be the average for the same one month period, as quoted by the Swedish National Bank*.
- The adjustments will take place on the 1st of each month.
- Rosslare-Cherbourg surcharge is now based on 44% 0,1% MGO fuel and 56% 0,5% LS fuel in the adjustment rules.
- * To facilitate introduction of new BAF rates on 1st of each month, the calculation is based on the average USD per metric tonne price for LSMGO 0,1%, LS 0,5% and USD rate of exchange up to the 21st of the previous month (e.g. May based on 22nd March to 21st April).
- As from January 1st 2025 Fuel EU Maritime biofuel compliance is included in the fuel surcharge by a share of B100 on all routes.
