Adjustment rules 2025:

1. The fuel surcharge will be adjusted on a monthly basis and will be valid for one calendar month.

2. The surcharge will be calculated based upon a one month average USD per metric tonne price for LSMGO 0,1% for the routes in kategori A to F and for LS 0.5% for the routes in categories G to K as of S&P Platts Dimensions Rotterdam www.spglobal.com, plus a delivery charge*.

The conversion rate will be the average for the same one month period, as quoted by the Swedish National Bank*.

3. The adjustments will take place on the 1st of each month.

4. Rosslare–Cherbourg surcharge is now based on 44% 0,1% MGO fuel and 56% 0,5% LS fuel in the adjustment rules.

* To facilitate introduction of new BAF rates on 1st of each month, the calculation is based on the average USD per metric tonne price for LSMGO 0,1%, LS 0.5% and USD rate of exchange up to the 21st of the previous month (e.g. May based on 22nd March to 21st April).

5. As from January 1st 2025 Fuel EU Maritime biofuel compliance is included in the fuel surcharge by a share of B100 on all routes.
