#### Adjustment rules 2025:

1. The surcharge will be adjusted on a monthly basis and will be valid for one calendar month.
2. The surcharge will be calculated based upon a one month average EUR per metric tonne price for CO<sup>2</sup> emission price\* as of Bloomberg, [www.bloomberg.com](http://www.bloomberg.com). The conversion rate will be the average for the same one month period, as quoted by the Swedish National Bank\*.
3. The adjustments will take place on the 1<sup>st</sup> of each month.
4. ETS will be implemented with a phasing, meaning 70% of total CO<sup>2</sup> emissions in 2025. This is valid for all routes.
5. Routes with both ports in the EU will be covered 100%, whereas routes with one port in the EU and one in the UK will be covered 50%. UK only routes will not be affected at this point.

\* To facilitate introduction of new ETS rates on 1st of each month, the calculation is based on the average EUR per metric tonne price for CO<sup>2</sup> and EUR rate of exchange up to the 21<sup>st</sup> of the previous month (e.g. May based on 22<sup>nd</sup> March to 21<sup>st</sup> April).
