DKK	26.76			50.61	76.54	82.08	133.88				

Adjustment rules 2026:

1. The fuel surcharge will be adjusted on a monthly basis and will be valid for one calendar month.
2. The surcharge will be calculated based upon a one month average USD per metric tonne price for LSMGO 0.1% for the routes in categories A to F and for LS 0.5% for the routes in categories H to K as of S&P Platts Dimensions Rotterdam www.spglobal.com, plus a delivery charge*. The conversion rate will be the average for the same one month period, as quoted by the Swedish National Bank*.
3. The adjustments will take place on the 1st of each month.
4. Where applicable, shore power while in port is included in charge levels as per matrix.

* To facilitate introduction of new BAF rates on 1st of each month, the calculation is based on the average USD per metric tonne price for LSMGO 0,1%, LS 0.5% and USD rate of exchange up to the 21st of the previous month (e.g. May based on 22nd March to 21st April).
